Our Ref: European Master Course MaMaSELF,
Your Ref: MaMaSELF Coordinator,

Dear Sir/Madam,

LETTER OF RECOMMENDATION – MR. EMMANUEL KOTU ROBERTSON

I am writing to you to recommend Mr. Emmanuel Kotu Robertson's application to "Master in Materials science exploring large scale facilities" (MaMaSELF) program. I have known Mr. Robertson for about two years now. The applicant encountered me in November 2019 when he was a senior at the Department of Physics, University of Cape Coast. He was pursuing a BSc. programme in Engineering Physics at the same department of the University of Cape Coast.

I found Emmanuel to be very conscientious, diligent and trustworthy. His high intellectual capability reflected in the excellent grade he obtained at the end of the degree programme. Mr. Robertson obtained and graduated with a bachelor's degree in Engineering Physics with First Class (honours) from the University of Cape Coast. Emmanuel is a team player with excellent interpersonal skills, who is highly resourceful and who also has a high emotional intelligence.

Emmanuel is a young intellectual full of ethical curiosity and he has a sharp and an analytical mind. He is computer literate and has strong computational skills, which was demonstrated during his project work presentations and seminars. I rate Mr. Robertson as the best student of the graduating physics class of 2020 for all physics majors: Engineering Physics, Meteorology & Atmospheric Physics and Physics. I rank him in top 5% of all students who have graduated from the Department of Physics in past 10 years.

Based on his academic capabilities and work ethics, it was not surprising to me that, Mr. Emmanuel Kotu Robertson was selected to serve his National Service as a teaching assistant at the Department of Physics, University of Cape Coast, Cape Coast. Emmanuel has full command of the English language in that his reading of English is excellent; his spoken and written English is also very good.

I hereby fully recommend Mr. Emmanuel Kotu Robertson for the MaMaSELF program. I also believe strongly he will successfully complete the post-graduate programme he is applying for. Thank you.

Yours Sincerely,

Augustine Arthur
(Lecturer in Physics)
